JosephSan Cookies Policy

What is a cookie?

Cookies are small files which are placed on your computer when you access a website or app – amongst other things; they help the website user to navigate efficiently between pages and the website operator to track usage of the site. The cookie allows the website to "remember" your actions or preferences over time. Most Internet browsers support cookies. However, users can set their browsers to decline certain types of cookies or specific cookies. Further, users can delete cookies at any time.

You can find out more about cookies at www.allaboutcookies.org.

Why do we use cookies?

We use cookies to learn how you interact with our content and to improve your experience when visiting our website(s). For example, some cookies remember your language or preferences so that you do not have to repeatedly make these choices when you visit one of our website(s). We also use cookies to help us with geolocation tracking to present you with the appropriate products and services for your location. Additionally, cookies allow us to serve you specific content, such as videos on our website(s). We may employ the learnings of your behaviour on our website(s), along with the targeted advertisements on third-party website(s) in an effort to "re-market" our products and services to you.

Our website uses cookies to distinguish you from other users of our website by storing non-personally identifiable information (e.g. session information such as the page(s) you visit on our website and the location from which you are accessing the website). Note that some limited information is personally identifiable for the purposes of:

- knowing your experience on our website/platform,
- analysing product trends and improving our site for our users, and
- delivering products and services tailored to your interests.

Any other information is anonymized and/or aggregated to produce statistical reports that allow us to evaluate the use of our website; and to present products and services relevant to the market trend. This improves and increases efficiency when you browse our website.

What types of cookies do we use?

First-Party and Third-Party Cookies

We use both first-party and third-party cookies on our website.

First-party cookies are cookies issued from the josephsan.com domain that are generally used to identify the user's location and render basic site functionality.

Third-party cookies belong to and are managed by other parties, such as Josephsan business partners or service providers. These cookies may be required to render certain forms, such as the submission of an online purchase, or to allow registered users to assess certain pages on JosephSan website.

Session Cookies

Session cookies are temporary cookies that are used to remember you during your visit to the website, and they expire when you close the web browser.

Persistent Cookies

Persistent cookies are used to remember your preferences within our website and remain on your desktop or mobile device even after you close your browser or restart your computer. We use these cookies to analyse user behaviour to establish product browsing patterns so that we can improve our product offering for you and others who visit our website(s). These cookies also allow us to serve you with targeted advertising and measure the effectiveness of our site functionality and advertising.

Information about our cookies

By using our website, apps or platforms, you agree to the use of cookies and other technologies. If you do not agree to such use, please either refrain from using the relevant website, app or platform, or see the section below "How do I reject and delete cookies?" to adjust your settings.

You can find more information about the individual cookies we use and the reasons for using them in the table below. Not all cookies are listed here. You may use your Browser to see cookies being used.

Cookie Name	Purpose	Duration	Cookie Type
XSRF-TOKEN	Used for security reasons	Session	Essential
Hs	Used for security reasons	Session	Essential
svSession	Used in connection with user login	Session	Essential

bSession	Used for system effectiveness measurement	30 minutes	Essential
fedops.logger.sessionId	Used for stability/effectiveness measurement	12 months	Essential

| wixLanguage | Used on multilingual websites to save user language preference | 12 months | Functional |

How are cookies used for advertising purposes?

Cookies helps us serve relevant ads to you more effectively. They also help us collect aggregated audit data, research, and performance reporting for JosephSan. Although we do not use cookies to create a profile of your browsing behaviour on third-party sites, we do use aggregate data from third parties to show you relevant, interest-based advertising. We do not provide any personal information that we collect to advertisers. You can opt out of off-site and "third-party-informed" advertising by adjusting your cookie settings. Opting out will not remove advertising from the pages you visit, but, instead, opting out will result in the ads you see not being matched to your interests. In other words, the ad(s) you see will not be matched to your interests by those specific cookies.

How are third party cookies used?

For some of the functions within our websites use third party suppliers, for example, when you visit a page with videos embedded from or links to YouTube. These videos or links (and any other content from third party suppliers) may contain third party cookies, and we encourage you to consult the privacy policies of these third party vendors on their websites for information regarding their use of cookies.

Our website may, from time to time, contain links to and from third party websites. If you follow a link to any of these websites, please note that these websites have their own privacy policies and that we do not accept any responsibility or liability for these policies. Please check these policies before you submit any personal data to these websites.

Third parties (including, for example, advertising networks and providers of external services like Google Analytics) may use cookies which are downloaded when you visit our site. These cookies are likely to be analytical, performance or targeting cookies.

How do I reject and delete cookies?

You can choose to reject or block all or specific types of cookies set by virtue of your visit to our JosephSan website by clicking on the cookie preferences on our website(s). Further information can be found in the "Help" section of your browser or at www.allaboutcookies.org. However, you should note that if you choose to do this, it may have an impact on the quality of your browsing experience. Please note that most browsers automatically accept cookies. Therefore, if you do not wish cookies to be used, you may need to actively delete or block the cookies. If you reject the use of cookies, you will still be able to visit our websites but some of the functions may not work correctly. By using our website without deleting or rejecting some or all cookies, you agree that we can place those cookies that you have not deleted or rejected on your device. To opt out of being tracked by Google Analytics across all websites visit http://tools.google.com/dlpage/gaoptout
